SHARRON ANGLE CALLS FOR AN END TO MULLER INVESTIGATION OF THE PRESIDENT AND RE-ESTABLISH CONSTITUTIONAL RULE

"Congressman Amodei voted repeatedly for the secret FISA court that spies on all Americans, time to end all the witch hunts"

Reno, Nevada: - Sharron Angle called for an end to the Muller investigation that Congressman Amodei enabled with his votes for the secret FISA court and other federal agencies that spy on all Americans daily. It is these laws that have allowed the current witch hunt against the President to continue and expand beyond Constitutional control, while Congressman Amodei remains silent, and the suffering of America continues.

Sharron Angle Calls For End To Spying On All Americans Immediately: *"Why is Congressman Amodei so silent on these important issues that harm all Americans? The Constitution is at risk because of what is happening in the Muller Investigation. It appears the FISA court was used to spy on a Presidential campaign with the intent to change the outcome of an election. If that turns out to be true, Congressman Amodei has a lot of explaining to do. Congressman Amodei voted repeatedly for the secret FISA Court and other laws that allow the federal government to spy on all Americans every day. It is time to end the Muller investigation, what a waste of tax money, which is paid for by debt Congressman Amodei also voted for. He's borrowing money in our name to spy on us? seriously? It's time to end all the witch hunts, end the secret FISA court, end the spying on all Americans. Congressman Amodei's fingerprints are on all of this", said Mrs. Angle.*

Sharron Angle Has Already Won A Debate Against Mark Amodei: *"At the University of Nevada College Republican Debate, I repeatedly pointed out how Congressman Amodei had made some terrible votes that hurt all of us in Nevada, and he agreed that I was right about those issues. It's on my website for everyone to see, and I appreciate his honesty", said Mrs. Angle. "If you want these broken Washington D.C. promises to stop, help me do it. Go to SharronAngle.com and help me win this race".*
