SHARRON ANGLE EXPOSES AMODEI'S DIVIDE & CONQUER STRATEGY TO WIN PRIMARY ELECTION WITH PROGRESSIVE VOTES, IGNORING REPUBLICANS

"Congressman Amodei is helping Democrats pass amnesty, working against President Trump and secure borders"

Reno, Nevada: - Sharron Angle Begins Exposing The Divide And Conquer Strategy that Congressman Amodei is now using to win the Republican primary by openly voting as a progressive Republican, and signing up voting with Nancy Pelosi on insecure borders and amnesty.

Sharron Angle Is Working To Unite Republicans: *"Congressman Amodei is ignoring and dividing the Republican Party in Nevada. He knows, the overwhelming majority of Republicans do not support reckless spending in Washington D.C. through debt, yet, he voted for it. Congressman Amodei knows the vast majority of Republicans in Nevada support President Trump's plans for secure borders and no amnesty, and he still signed up to do just that. We are promised things for years by Washington D.C. politicians, and then when the opportunity comes to get the job done, the people we elect are afraid to do it, don't want to do it, or have been convinced that it's better to ignore the people who voted for them and do something else. That's what is happening today, and I'm running to make the promises we have all heard a reality. Congressman Amodei is helping Democrats pass amnesty, while working against President Trump and secure borders. I will do the exact opposite",* said Mrs. Angle.

Sharron Angle Has Already Won A Debate Against Mark Amodei: *"At the University of Nevada College Republican Debate, I repeatedly pointed out how Congressman Amodei had made some terrible votes that hurt all of us in Nevada, and he agreed that I was right about those issues. It's on my website for everyone to see, and I appreciate his honesty",* said Mrs. Angle. *"If you want these broken Washington D.C. promises to stop, help me do it. Go to SharronAngle.com and help me win this race".*
